

Software Enhancement Report

February 2021

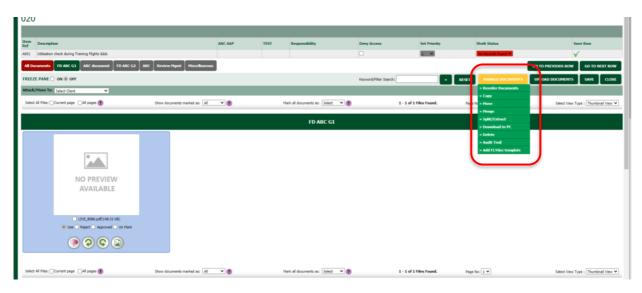

February 2021

Module: Technical Management Module >> Airworthiness Review Centre **Release Date:** 17/02/2021

Title of Item: To split out permissions for all document functions on an additional list by segregating them in a separate group, which will be assigned individually.

Description: Permissions for Document functions have now been separated in the Airworthiness Review Centre. These permissions can now be controlled individually. Beforehand, if users had Manage Documents enabled, they were able to perform all Manage Document functions. Permissions are now controlled within Manage Group Rights for FLYdocs Administrators.

February 2021

Module: Fleet Management >> Maintenance Control Centre **Release Date:** 17/02/2021

Title of Item: To select different documents from different pages at the same time, to be able to attach to one WP or its Listing at the same time.

Description: Document selection has now been made easier in MCC. If a user is selecting multiple documents on more than one page within MCC, document selection on these pages will now be automatically saved. This will ensure multiple documents can be selected on Page 1, Page 2 within MCC, as an example. Users can then perform operations with these pre-selected documents such as: Attach, Move, Copy, Merge, Delete, Reload Delete, Download to PC.

Software Enhancement Report

February 2021

Module: Fleet Management >> Maintenance History **Release Date:** 18/02/2021

Title of Item: Enhancement in MH asset filter selection during move/copy operation **Description:** Users are now able to filter for an aircraft by typing in the aircraft on the Move/Copy Folder window within Maintenance History. This prevents the user from having to manually select an aircraft from what can be a very long list for certain FLYdocs clients.

FLYCOCS Move / Copy Folder		powered by FLYdocs
